# **THE RIVERLAND FIELD DAYS SAFETY POLICY**

## ***Exhibitors Safety Responsibilities***

- ◆ The Exhibitor at all times shall exercise all necessary precautions for the safety of the public, employee(s) and others appropriate to the nature of the exhibit site/demonstration and the conditions under which the event is conducted. The Exhibitor shall comply with all statutory requirements, including test and tag electrical compliance, and such directions as the Riverland Field Days Site Safety Co-ordinator may give.
- ◆ Notwithstanding any directions or approvals given by the Site Safety Co-ordinator the Exhibitor shall at all times be held responsible for the safety of all persons engaged in the operation of an exhibit site/demonstration.
- ◆ The Exhibitor shall promptly report to the Site Safety Co-ordinator, all accidents involving death, personal injury, and all incidents with the accident potential such as equipment, structure or infrastructure failure and the like. If required, the Site Safety Co-ordinator shall ask for an incident/accident report which must be provided to the Riverland Field Days Site Safety Co-ordinator or the Executive Manager within 48 hours of the accident/incident.
- ◆ The Exhibitor shall implement a Site Specific Safety Management Plan. This plan will demonstrate how the Exhibitor will comply with the Work Health and Safety Act and associated Acts and Regulations.
- ◆ The Riverland Field Days Inc. has compiled a Site Hazard Identification List, which will be forwarded to you following payment of your site fees. This list, or equivalent company safety plan, must be completed and returned to the Executive Manager to finalise your site application requirements. If you do not receive this list, ensure you contact the Executive Manager for a copy.
- ◆ The Site Safety Co-ordinator will be available during the course of the Riverland Field Days to assist with the site setting up, operating and dismantling.
- ◆ The Exhibitor is responsible for ensuring that any marquee or other temporary structure placed on their site is erected correctly and competently in accordance with the manufacturers specifications for safe and secure erection; and in accordance with any Australian Standards; and industry general safe practice.
- ◆ The Exhibitor is responsible for ensuring that there is no movement of any vehicle, under the control of the Exhibitor, on any part of the field days site during the public access hours of the field days.

## ***Exhibitor Safety Management Plan***

Each exhibitor is required to provide a safety management plan by completing a Site Hazard Audit List, which addresses the following:

1. Safety management responsibilities within the Exhibitor organization which details the names and position of persons responsible for the following aspects:
  - 1.1 Maintaining up-to-date Work Health and Safety regulations, codes and practices and the communication of their relevance within the Exhibitors organization.
  - 1.2 The identification of and evaluation of site specific WH&S hazards through the completion of the site hazard audit list.
  - 1.3 Ensuring safe operation of all equipment, plant and materials used on the site.
  - 1.4 Procuring training, enforcement of the use and the monitoring of the condition of all related equipment.
  - 1.5 The management of on site work methods, the warning of hazards and the implementation of accident and emergency procedures.
  - 1.6 The protection of the public on and near to the site.
  - 1.7 The assessment and monitoring of all sub-contractors on site.
  - 1.8 Providing First Aid and the maintenance of First Aid stock.
2. The identification of the site related WH&S hazards, and for each hazard, the preparation of Job Safety Analysis, (JSA). The JSA should include Standard Operating Procedures (SOP) designed to manage the associated hazards.
3. A procedure for reviewing the site related hazards during the life of the Riverland Field Days and if necessary the development of a revised Site Safety Plan.
4. In the development of a Site Safety Plan, consideration should be given, but not limited to, the defining of confined spaces, adequate illumination, traffic control, machinery guards, safe access, working at heights, hazardous substances, use of electrical compliant equipment and appliances.
5. If the Safety Management Plan, in the Site Safety Officer's opinion, does not adequately cover the requirements, then work will not be permitted to commence on site until the Safety Management Plan has been revised to cover the requirements.
